About Me

I'm a front-end developer specializing in HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, React.js , Vue Js and Firebase. With a passion for creating visually stunning designs and seamless user experiences, I excel in crafting dynamic interfaces and animations. My focus is on delivering high-quality, professional solutions that merge functionality with aesthetic appeal.

Work Experience

Brandora
Web Developer

Jan 2022 - Apr 2024

At Brandora, I'm all about making websites, landing pages, and web apps that look awesome and function smoothly. I'm really good at adding cool animations to keep users interested. I make sure everything looks nice but is also easy to use, so people enjoy using it.

National Incubation Center(NIC)
Hanzai | Web Developer

Jan 2021 - Dec 2022

During my time as the web developer at Hanzai (incubated at NEP-NIC Kohat), I crafted the landing page of the website. Its design is visually appealing and user-friendly, making it effortless for users to explore the app and learn about the various packages it offers. I ensured compatibility across different devices and browsers to provide a seamless experience for all users.
